THE READING

From <https://breakingnewsenglish.com/1806/180615-nobel-peace-prize-0.html>

Donald Trump and Kim Jong-un could win a Nobel Peace Prize. Betting companies cut their odds on them winning. President Trump is now 2/1 to get it. North Korea giving up nuclear weapons and the USA stopping "war games" would make the world safer. A historian said: "It would be very difficult to not award them the prize."

The historic meeting was the first time that leaders from the U.S. and North Korea have met. The two men shook hands. Some people say they should not get the prize. Mr Trump pulled out of the Paris Climate Agreement. Critics also point to human rights in North Korea. Maybe South Korea's President Moon Jae-in should get it.
