THE ARTICLE

From https://breakingnewsenglish.com/2611/261119-gta-6.html

Grand Theft Auto 6 (GTA 6) has finally been released. Millions of video game fans worldwide are now playing it. They have waited 13 years for a new GTA game since the release of GTA 5. Gaming experts say the latest version could be the biggest entertainment release in history. It has already sold millions of copies, and it is set to make billions of dollars. Some fans are so excited that they are taking days off work or school to play it. An HR company in the UK said that workers in Britain booked around 83,000 days off because of the game. Many fans tried to make their games consoles think they lived in New Zealand by changing their region settings. They tried this so they could play the game earlier.

GTA 6 has received excellent reviews for its high-quality, realistic graphics and exciting story. Players get to explore a huge world of crime and follow the lives of two criminals. However, many experts warn that the game is unsuitable for children under the age of 17. That is because it contains violence, killing, car theft, bad language, drugs, alcohol and sexual content. Media expert Jasmine Hood Miller said: "In GTA, players commit crimes, sometimes against ordinary people who did nothing wrong." She added: "GTA is a very well-made game that teens find fun to play." Many children will play the game, so experts are advising parents to discuss the game's content and set clear rules.
